

Helicopter Operation Procedures for Ships: Essentials

E-learning course

**AVAILABLE TO
PURCHASE**

Designed to be used alongside
the associated publication,
*Guide to Helicopter/Ship
Operations*

The *Helicopter Operation Procedures for Ships: Essentials* presents four key lessons that crews need to know to conduct a safe and efficient helicopter operation:

- Considerations before operations
- Preparing for arrival
- Communicating before arrival
- Communicating during operations

Extracted from the original, nine module course, this bundled learning package is based on the best-selling publication *Guide to Helicopter/Ship Operations*. It provides crews with the latest guidance on standardised procedures and encourages safe and efficient performance in the field.
