

SEMINAR INFORMATION

17. November

15:30 - 20:30

8/F Renaissance Harbour view Hotel Hong Kong,
1 Harbour road, Wan Chai, Hong Kong

Norwegian Solutions and Experiences in Maritime Decarbonization

A Team Norway-seminar and reception during Hong Kong Maritime Week, hosted by Innovation Norway and the Royal Norwegian Embassy in Beijing.

As the global maritime industry accelerates its shift towards decarbonization, Norwegian stakeholders are actively developing, testing and implementing innovative solutions. Norway has established itself as a testing ground and innovation hub for green shipping technologies, offering internationally relevant experiences and results.

This Team Norway-event will showcase Norwegian solutions and experiences in areas such as alternative fuels, battery-electric and hybrid propulsions, digitalization and operational efficiency, infrastructure and value chain development. With a rich maritime heritage and a strong commitment to sustainability, Norway remains dedicated to the IMO goal of achieving net-zero CO₂-emissions by 2050 – and to the sharing of Norwegian expertise to accelerate the transition to a cleaner, more sustainable maritime industry.

Programme

15:30 - 18:30: Seminar

18:30 - 20:30: Reception hosted by the Norwegian Ambassador to China
