Shaping the Future of Shipping

Piracy, Armed Robbery and Conflict at Sea

2026–2027 Edition

£195

This publication details current piracy and armed robbery hotspots, as well as regions of conflict and areas of increased risk. It includes the latest industry guidelines and advice to aid in the development of ship security plans and provides useful material for the training of Masters and Ship Security Officers to help achieve mandatory training requirements.

The new edition includes:

- Updated piracy statistics and case studies, with new and expanded coverage of maritime terrorism, warzones/warlike areas and GNSS/AIS jamming and spoofing.
- new material on security measures in ports and guidance for implementing ship security plans (ISPS Code)
- the latest updates on international and national cooperation, including naval and security forces
- revised response guidance, including ship damage mitigation, medical considerations, hostage situations and missile/mine/drone incidents
- advice on navigation, passage planning in high-risk areas and training programmes for crew and onshore staff
- updated annexes, bridge cards and checklists reflecting the latest reporting formats for all stages of an incident (protect, prevent, respond, recover).
